

VEHICLE GRAPHICS, WRAPS, & DECALS

24/7 Advertising

Customised

Custom trailers, cars, trucks and much more!

Signs SA
.COM.AU

Quality vehicle graphics are a sign of a professional company and possibly the most cost effective form of advertising any business could invest in.

Being one of the only fully accredited 3M vehicle application companies in South Australia, we can help you design and implement a professional package with an eye for your intended market.

For example, a \$2,000 wrap – with a life expectancy of 3-5 years, that works out to less than \$13 per week for 24/7 advertising (even based on 3 years) and remember your company vehicles will be selling your product in traffic, when they are on site, parked in front of your shop, at the local shopping centre and even at night in employees driveways as neighbours are walking past.

Considering a vehicle costs a company upwards of \$12,000 a year why not make that investment work harder to brand your business?
