

ANTI-GRAFFITI

PROTECT YOUR GLASS AND BRAND FROM VANDALISM

ANTI-GRAFFITI WINDOW FILM

Shields graphics, surfaces, and windows from "tagging" (as graffiti is commonly referred to), vandalism, and damage.

Why waste time and money replacing windows? Anti-Graffiti Window Film helps prevent the damage in the first place by protecting surfaces against graffiti. With easy clean options.

Anti-Graffiti Window Film is a clear, distortion-free film for protection of windows, graphics, mirrors and other surfaces in retail, public facilities, and any street-level glass applications. Useful for interior or exterior applications,

If the film becomes scratched or etched, it provides an invisible barrier that can be removed and replaced as opposed to replacing the glass itself. The protection is clear and will not significantly alter the appearance of glass or any surface is applied to.

Anti-Graffiti Window Film Product Benefits / Options:

Gouge Resistant

Helps repel intentional attempts to gouge, deface, or destroy surfaces. Your glass remains unscratched.

Acid-etch Resistant

Helps protect glass from permanent damage caused by glass etching solutions.

Scratch Resistant

Helps resist scratching and abrasion caused by sharp objects or devices. (Intentional or accidental)

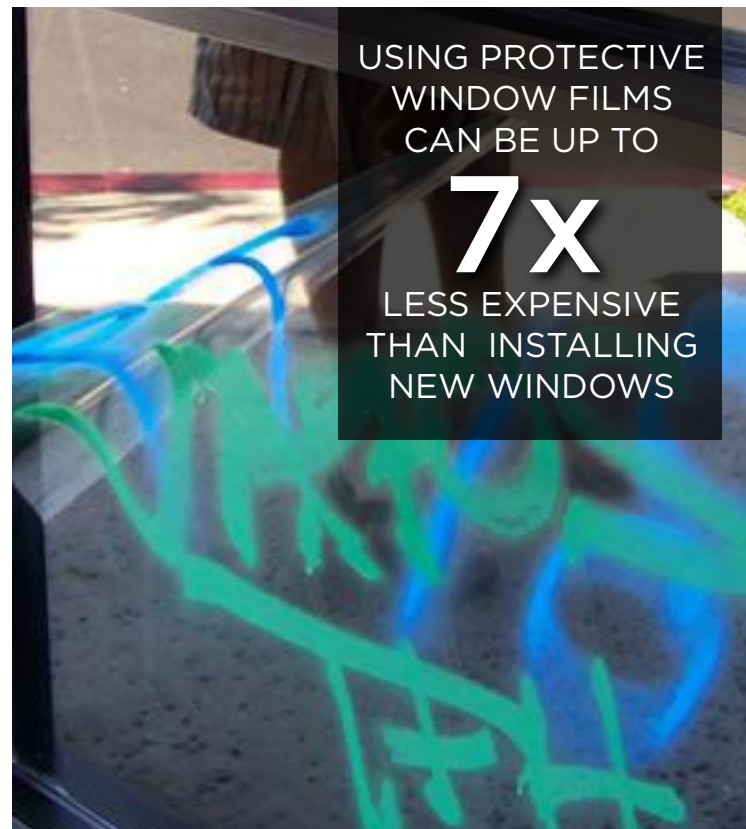

Indoor/Outdoor use

May be applied to either interior or exterior locations such as glass, windows, and mirrors.

Easy to clean

Easy to clean without use of harmful an abrasive chemicals. Most graffiti comes off with a water based anti-graffiti cleaner.

Stubborn stains may require methylated spirits

TINT FILMS:

Great heat rejection helps provide energy savings and improved comfort. Enhanced views with low interior reflectivity, especially at night. Helps reduce glare and extend the life of furnishings by significantly reducing harmful UV rays, the largest cause of fading.

- **3M Night Vision 15 (darkest)**
- **3M Night Vision 25 (mid)**
- **3M Night Vision 35 (lightest)**

TINT & MIRROR FILMS:

Classic silver reflective film with excellent solar protection. Increased reflection helps increase daytime privacy. Helps reduce glare and eye discomfort. Create a more uniform exterior appearance.

- **3M Silver 15 Exterior (darkest)**
- **3M Silver 35 Exterior (lightest)**

TINT & REFLECTIVE FILM:

Perfect for internal & external applications. This product provides privacy so people can't see in but you can see out. Increase privacy, reduce glare and eye discomfort. Increase comfort and reduce air conditioning costs. Helps extend the life of furnishings by significantly reducing harmful UV rays.

- **3M P18Arl Silver**

SECURITY REFLECTIVE MIRROR:

Combination safety / solar control window film. Help protect from broken glass hazards. Increase privacy, reduce glare and eye discomfort. Increase comfort and reduce air conditioning costs. Helps extend the life of furnishings by significantly reducing harmful UV rays.

- **3M Security Silver 20**

SAFETY (Break & Entry):

Mitigates hazards from shattered glass due to natural and human causes. Increases security and provides added protection against smash and grab burglaries. Helps provide protection to people and property from flying glass in natural disasters. Increases anti-spall protection for laminated glass.

- **3M Safety S70 (entry)**
- **3M Safety S80 (mid)**
- **3M Safety S140 (thick)**

TINT & BREAK/ENTRY:

Same benefits as the safety film plus:

Helps extend the life of furnishings by significantly reducing harmful UV rays with tint.

- **3M Ultranight Vision 25**

ANTI GRAFFITI:

This film is intended to be a sacrificial layer to help protect against damage from graffiti, glass etching, and other commonly used methods to mark glass. The film does not chemically bond to glass and is easily removed when replacement is required.

- **3M Anti-Graffiti AG-4 (thinnest)**
- **3M Anti-Graffiti AG-6 (thickest)**
